Brenda -

Jess is trying to push the final Glyphosate CARC document through in FY15. He's hoping to have it out tomorrow. If so, do you want me to add it to ISTEP?

Have a great day!

Brenda –

Glyphosate just went to CARC today. The classification was “Not Likely”. I do not know if there will be a final document out by the end of September, although I know Jess wants committee comments by next Wednesday. Do you want me to include it in ISTEP, or add it in next year with FY16?

Have a great day!
